# Closing the Gap

It's been a watershed 18 months for Wilson® Golf. New products captured the imagination of golf writers, golf professionals and, most importantly, golfers of every skill level. Di7 irons won Golf Monthly's, Best on Test in its category, while Ci7 irons earned top honors in the ClubTest® 2008 from GOLF® Magazine. Meanwhile, the elegant simplicity and playability of FYbrid fairway utilities resonated with consumers, standing as our best selling faux woods in years and won Nation Club Golfer's, Best on Test.

On tour, we were even hotter. Padraig Harrington kicked it off with his first major at Carnoustie to close 2007, then DJ Trahan won on the west coast to kick off 2008. Of course, most recently, Padraig forged his name into history by winning back-to-back Open Championships, bringing to 60 the total number of major championships won with Wilson irons.

## So what's next?

For 2009, new irons, woods and wedges lead our strongest product line in history. All of the new equipment features a unique distance gapping approach that is designed to fill the yardage gaps created by today's modern club designs. The 2008 FYbrid fairway utilities first addressed the gapping issue as it applied to long range needs. Now we've applied this same philosophy to the other end of the spectrum in the new Tw9 tour-milled wedge series, and even built it into the completely new Di9 iron. Distance gapping solutions from Wilson Staff. We're closing the gap towards a perfect game.

# Which Staff Player are You?

Power or control? Hit it straighter or work the ball? Classic lines or innovative approaches? We understand that playing styles vary. That's why each Wilson Staff® iron is uniquely designed to deliver maximum performance for all styles of play. Whether it's a classic forging, a tour winning performance blade or a powerful distance iron, Wilson Staff delivers industry leading innovation and unmatched craftsmanship. With complete custom fitting available, the question begs: Which Staff player are you?

NEW Di9.  
More power. More accuracy. More feel.

MORE IS BETTER.

# Putters

Nowhere is personal preference more prevalent than the putter category. That's why we offer such a broad selection of Prostaff® and Harmonized™ putters, each with a unique head shape and weighting option. Available in both men's and women's options.

## Wilson® Prostaff® Putters

Anodized aluminum alignment bar combined with a milled face delivers great feel and pinpoint accuracy.

# Golf Balls

Wilson® Profile™ golf balls offer a fresh approach to the confusing golf ball category. All three golf balls begin with an optimum blend of power and feel. We then amplify a single characteristic to meet the needs of the three most common player types.

## Profile™ Power

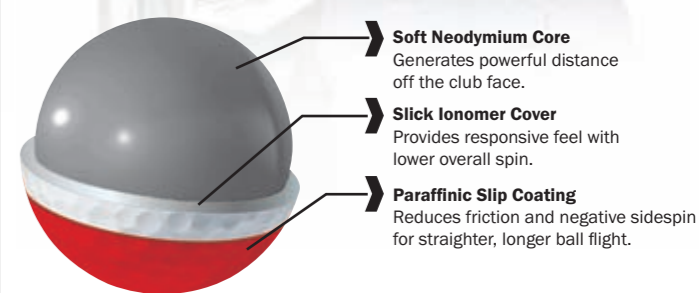

For some, it's to offset low club head speed. For others, it's to break the 300-yard barrier. The Profile Power amps the power coefficient to reach USGA restrictions for initial velocity.

PROFILE POWER				
Construction	Core	Cover	Distance	Spin
2-Piece	80	Dual Cover	Longest	Hop & Stop

## Profile™ Anti-Slice

The most common - and frustrating - flight characteristic is the slice. The Profile Anti-Slice utilizes a proprietary paraffin cover coating to reduce friction and lower negative sidespin for straighter ball flight and greater distance.

PROFILE ANTI-SLICE				
Construction	Core	Cover	Distance	Spin
2-Piece	90	Ionomer	Long	Hit & Release

# Golf Balls

Ultra® golf balls have always combined excellent value with outstanding performance – the new Ultra Ultimate Distance ball continues that tradition.

**Ultimate Distance.** Ultra golf balls have always combined excellent value with outstanding performance – the Ultra Ultimate Distance ball continues that tradition.
