

Prostaff® MOI MEN'S & WOMEN'S COMBO SETS

Advancements in technology have created specialization of design in every club – and the new ProStaff MOI set capitalizes on this idea to improve every aspect of your game.

Perfect Transition

A unique hybrid shape and four distinct iron head designs perfectly transition from long range bombs to short game accuracy.

Hybrids

- High MOI weight distribution makes it much easier to hit than long irons.
- Low CG head shape gets the ball airborne quickly.

Hollow Irons

- Familiar iron head shape at address helps improve confidence.
- Maximum perimeter weighting is achieved by a hollow cavity inside the head.

High Launch Irons

- Unique transition club bridges between distance and scoring clubs.
- Thick sole to lower CG and improve trajectory.

Cavity Irons

- Shot control perimeter weighting for accurate mid iron shots.
- Wide sole sweeps through hitting area and improves ball contact.

Blade wedges

- Low CG produces high spin for improved accuracy around the greens.
- Tour proven head shape and sole design enable a wide variety of shots for better scoring opportunities.

Shaft Options

Lightweight, low torque graphite shafts or True Temper steel shafts

Grips

All weather rubber grips with improved design in critical feel areas.

Women's ProStaff MOI

Considering various size, strength and swing mechanic differences, this woman's set uses the same design philosophy but with a woman's game in mind.

Prostaff® MEN'S COMPLETE SET

Prostaff combines advanced materials with the latest technologies. Wide soled irons keeps weight low. The enormous sweet spot driver launches tee shots longer and straighter. Aerodynamic woods and hybrids increase headspeed and feature a beautiful deep blue finish.

Set Configuration (3 x 2 x 6)

- Woods (1,3,5)
- Hybrids (17° and 21° lofts replace traditional #3 and #4 iron)
- Irons (5,6,7,8,9,PW)

Driver

- Concentrated Mass Weight Screws
- Cold Forged Titanium Matrix
- Maximum Legal Size 460cc

Hybrids

- Much easier to hit than long irons
- 17-4 stainless steel

Irons

- 431 Stainless Steel
- Deep undercut cavity
- Wide soles and thick topline

Shafts and Grips

- Woods / Hybrids feature 100% graphite shaft with reinforced tip
- Irons feature True Temper™ steel iron shaft
- Premium Wrap grip

Prostaff® WOMEN'S COMPLETE SET

Prostaff is designed from the ground up just for women. Extremely wide sole irons make quality ball contact easier and an undercut cavity produces better ball flight and more distance. The amazing "deep magenta" finish is beautiful and durable.

Set Configuration (3 x 2 x 6)

- Woods (1,3,5 and 7)
- Hybrid (25° loft replaces #5 iron)
- Irons (6,7,8,9,PW and SW)

Driver

- Higher Lofted
- Cold Forged Titanium Matrix
- Fairway woods #3,5 and 7

Hybrid

- Much easier to hit than long irons
- Very low center of gravity

Irons

- 431 Stainless Steel
- Deep undercut cavity
- Extremely wide soles and large face

Shafts and Grips

- All clubs feature lightweight graphite shaft with reinforced tip
- Premium Wrap grip

Putters

Nowhere is personal preference more prevalent than the putter category. That's why we offer such a broad selection of Prostaff® and Harmonized™ putters, each with a unique head shape and weighting option. Available in both men's and women's options.

Wilson® Prostaff® Putters

Anodized aluminum alignment bar combined with a milled face delivers great feel and pinpoint accuracy.

Triangle Bar Putter

Mallet Putter with Weight Screw

Heel Toe Putter with Weight Screw

Prostaff Putter I

Prostaff Putter II

Prostaff Putter III

Prostaff Putter IV

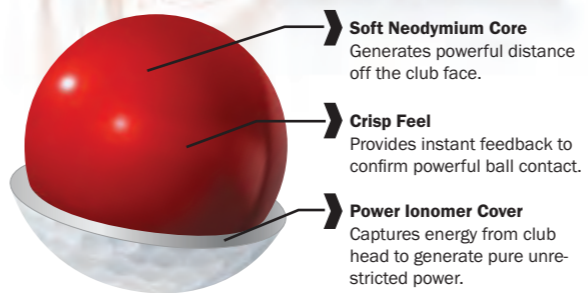

Golf Balls

Wilson® Profile™ golf balls offer a fresh approach to the confusing golf ball category. All three golf balls begin with an optimum blend of power and feel. We then amplify a single characteristic to meet the needs of the three most common player types.

Profile™ Power

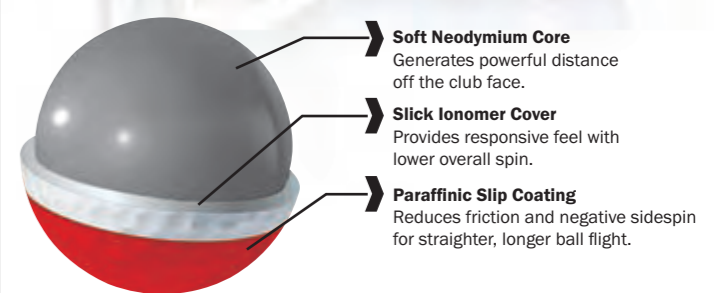

For some, it's to offset low club head speed. For others, it's to break the 300-yard barrier. The Profile Power amps the power coefficient to reach USGA restrictions for initial velocity.

PROFILE POWER				
Construction	Core	Cover	Distance	Spin
2-Piece	80	Dual Cover	Longest	Hop & Stop

Profile™ Anti-Slice

The most common - and frustrating - flight characteristic is the slice. The Profile Anti-Slice utilizes a proprietary paraffin cover coating to reduce friction and lower negative sidespin for straighter ball flight and greater distance.

PROFILE ANTI-SLICE				
Construction	Core	Cover	Distance	Spin
2-Piece	90	Ionomer	Long	Hit & Release
