

Golf Balls

Wilson® Profile™ golf balls offer a fresh approach to the confusing golf ball category. All three golf balls begin with an optimum blend of power and feel. We then amplify a single characteristic to meet the needs of the three most common player types.

Profile™ Power

For some, it's to offset low club head speed. For others, it's to break the 300-yard barrier. The Profile Power amps the power coefficient to reach USGA restrictions for initial velocity.

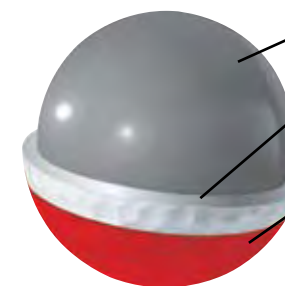

- ▶ **Soft Neodymium Core**
Generates powerful distance off the club face.
- ▶ **Crisp Feel**
Provides instant feedback to confirm powerful ball contact.
- ▶ **Power Ionomer Cover**
Captures energy from club head to generate pure unrestricted power.

PROFILE POWER				
Construction	Core	Cover	Distance	Spin
2-Piece	80	Dual Cover	Longest	Hop & Stop

Profile™ Anti-Slice

The most common - and frustrating - flight characteristic is the slice. The Profile Anti-Slice utilizes a proprietary paraffin cover coating to reduce friction and lower negative sidespin for straighter ball flight and greater distance.

- ▶ **Soft Neodymium Core**
Generates powerful distance off the club face.
- ▶ **Slick Ionomer Cover**
Provides responsive feel with lower overall spin.
- ▶ **Paraffinic Slip Coating**
Reduces friction and negative sidespin for straighter, longer ball flight.

PROFILE ANTI-SLICE				
Construction	Core	Cover	Distance	Spin
2-Piece	90	Ionomer	Long	Hit & Release

Profile™ Feel

Many golfers are hitting it plenty long, but are looking to stop the ball on greens. The Profile Feel utilizes an ultra-soft, club-grabbing cover blend to generate higher spin off the scoring irons.

- ▶ **High-Resilience Neodymium Core**
Generates great distance with soft feel.
- ▶ **Thin Ionomer-Blend Cover**
Provides ultimate control and shot-making spin.
- ▶ **Tour Responsive Feel**
Delivers ultra-soft feel for tour-caliber feedback in scoring zone.
