

**“THESE
IRONS ARE SO
POWERFUL,
I ONLY WISH I
HAD A HIGHER
HANDICAP
SO I COULD
USE ‘EM.”**

***Padraig Harrington**
2007 Open Champion and
European Tour Golfer of the Year*

NEW Ci7 Irons *Tour Inspired Control*

The new Ci7 iron draws its inspiration from the award-winning Ci6, and improves upon it. It combines a tour-driven mid-size shape with a greater level of forgiveness for maximum playability. A great iron for the player that requires slightly more forgiveness.

Di7 Irons *Award Winning Distance*

Around the world, the Di7 iron has proven its distance superiority against the game's leading irons. Nearly 9 out of 10 consumers hit the Di7 longer than their current iron.* We believe there is not a longer, straighter iron on the market today.

*For the past 12 months, Wilson has encouraged golfers to test their favorite clubs against the Di7 in "Di7 Challenge" events around the world. Using sophisticated Trackman™ testing equipment, Wilson club engineers capture pertinent launch data including distance for the Di7 iron and its competitive challenger. Overall, the Di7 has won more than 90% of all consumer tests.
