

# “THE SIMPLE ANSWER TO IMPROVING MY LONG GAME? FYBRID.®”

**Padraig Harrington**  
2007 Open Champion and  
European Tour Golfer of the Year

## **FYbrid Fairway Utilities.**

The fusion of fairway woods and hybrids into a single family that delivers consistent distance gapping between clubs for easier long range club selection.

With overlapping combinations of loft, length, club head size and shape, golfers are more perplexed than ever about club selection from the fairway. The new FYbrid series solves this confusion with three basic principles.

### **Precise loft and length combinations:**

Consistent distance gapping from the 5 hybrid through the 3 wood.

### **1:1 direct iron replacement hybrids:**

Remove your 4-iron, replace with 4-h. Repeat.

### **FYbrid bridge club:**

The perfect fusion of fairway wood and hybrid. Think new go-to club from long range.
